¿Cómo se funciona el español? How Does Spanish Work?

The "WHAT" and the "HOW" of Teaching Spanish Language Arts (K-6)

Want to know more about how academic Spanish works?

Do you teach Spanish language arts at the elementary school level? Do you want to improve your academic Spanish and learn more about how to teach academic Spanish to your students? If you do, then this full-day institute, which will be presented entirely in Spanish, is for you!

We will focus on understanding the Spanish language structures and grammatical patterns that facilitate its acquisition and development. Together, we will analyze the linguistic augmentation outlined in the "Common Core en Español" standards to discern a progression of key Spanish language skills at each grade level. We will explore, and you will see demonstrated, grammar lessons that can be taught in context with reading and integrated with oral and written expression to support your students' acquisition of critical language structures and grammatical patterns in Spanish. We will specifically address accentuation in Spanish through a continuum of standards-based lessons. We will also share and practice interactive strategies to teach "how Spanish works" in the classroom.

Monday, February 25, 2019

8:30 a.m. to 3:30 p.m.

COST

\$225

Limited seating.
