

# Mathematics

FLYER UPDATED 8/25/17

**September 25, 2017**

8:30 am to 3:30 pm

LOCATION:

Tulare County  
Office of Education  
Administration Building  
6200 S. Mooney Blvd.  
Visalia, CA 93291

AUDIENCE:

6<sup>th</sup> - 12<sup>th</sup> Math Teachers,  
Mathematics Coaches,  
Administrators

COST:

\$175

INCLUDES:

Complimentary Lunch and  
Access to Mathalicious  
lessons through 1/25/2018

OMS REGISTRATION:

<http://tulare.k12oms.org>

# Tulare County Office of Education

Jim Vidak, County Superintendent of Schools

*Welcomes*

## Karim Ani

*founder of Mathalicious*

### The World Is an Interesting Place. Math Class Should Be, Too.

What are the consequences of a higher minimum wage? How do the rules of an election affect the outcome? What's the optimal price for pharmaceuticals? Do people prefer a low price or the illusion of a deal?

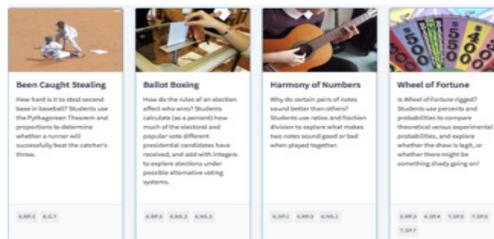

The world is an interesting place full of interesting questions and important questions. And the math class is the perfect place to explore them.

Come experience the type of lessons that tap into and foster a culture of curiosity and deep mathematical thinking, lessons that engage your students in rich discourse, challenging them to construct arguments, justify their reasoning, and thinking about the world in a more critical way.

Join the founder of Mathalicious, Karim Ani, to explore several real-world applications using middle and high school mathematics. Leave ready to facilitate one of these lessons with your classes in a way that feels authentic, sounds conversational, and just oozes mathematical richness.

Mathalicious has a bank of lessons built on the premise that these interesting questions can serve as the basis of great mathematical lessons. Participants will receive a free subscription to all resources on the Mathalicious website through January 25th, 2018. After that date, several free lessons and resources will still be available.
