Project focus areas...

Leadership Skills

- Build skills to effectively lead PLCs, grade levels, and departments.

Research

- Examine the research behind powerful instructional approaches such as CGI (Cognitively Guided Instruction), problem-based learning, lesson study, etc.).

CCSS-M CIA

- Learn effective ways to link CCSS-Mathematics standards with instruction and assessment.

Participants will....

- Receive a \$500 stipend for attending the institute
- Network with teachers from all over the region
- Learn how to utilize CAASPP resources
- Deepen mathematics content knowledge
- Be given free admission to SJVMP's fall and spring events during the 2018-19 academic year, as well as the 2019 Winter Leadership Retreat
- Be offered up to 4 units of credit through Fresno State

What is my school or district expected to provide?

- Registration fee of \$1500, payable by check or purchase order to Fresno State Foundation
- Support: Possible release days for you to present at regional and statewide mathematics conferences
