<http://tulare.k12oms.org>

Tulare County Office of Education

Jim Vidak, County Superintendent of Schools

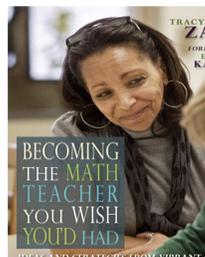

Welcomes

Tracy Zager

Becoming the Math Teacher You Wish You'd Had

If you ask mathematicians, they might describe mathematics as wondrous and playful, something that captures their curiosity and allows them to explore, or something that leads them to beautiful insights and discoveries. Ask most anyone else and they might paint a dramatically different picture. How do we make school mathematics a powerful and joyful experience for our students?

Join us as Tracy Zager guides us in exploring and learning from her extensive work with a range of teachers, shares her insights into practices that support students as they blossom and develop as thoughtful mathematicians. Come either day and continue your own journey in becoming the math teacher you wish you'd had.

Attend and you'll receive Tracy Zager's pivotal book, "*Becoming the Math Teacher You Wish You'd Had*."

After the event: Continue the conversation and share your own insights as we delve into Tracy's book through an ongoing book study (meeting virtually through Zoom).

Tentatively scheduled for March 20, April 10, May 8, May 29, 2018 at 5 pm PST. Details to come.

About the Author

Tracy has worked in many schools over the course of her career, first as a fourth-grade teacher, then as a supervisor of preservice teachers and their in-service mentors, and currently as a math coach. "*Becoming the Math Teacher You Wish You'd Had*" grew out of Tracy's work in classrooms, where she's most in her element, learning together with teachers and students over time.
