

Using the CAASPP Practice & Training Tests

The CAASPP Practice Tests provide students with an opportunity to experience a range of grade-specific item types (as well as performance tasks) similar in format and structure to the CAASPP assessments. They have approximately 30 items in ELA and math per grade level, and one performance task per grade level for grades 3-8 and 11. Tests are not scored, however answer keys and scoring rubrics are available

The CAASPP Training Tests provide students with an opportunity to quickly become familiar with the software and interface features, such as matching tables, table fill-in, and evidence-based selected response that will be used in the CAASPP assessments. There are approximately 14-15 items (6 in ELA and 8-9 in math) per grade band (3-5, 6-8, high school).

There is no login required and anyone including parents and the public can access them using the default guest login and can be taken in a regular browser.

Logging in

Go to caaspp.org and select Practice & Training Tests

Select the Student Interface Practice and Training Tests
