

California's Standards Professional Development - Science

Putting It All Together – Science

Curriculum, standards, assessment, instructional strategies, science practices: How do we put it all together in a way that makes the science come alive for your students? These sessions are structured to address your questions when you need answers most.

- How do you apply the CA Science Framework?
- How do you develop students with a deep understanding of science?
- How do you implement powerful strategies to support all learners?
- How do you integrate science?

These workshops are designed to provide year-long support and opportunities to collaborate with other teachers to empower student science learning.

Kindergarten	October 22, 2018 March 4, 2019	http://tulare.k12oms.org/147-150460
1 st Grade	October 23, 2018 March 5, 2019	http://tulare.k12oms.org/147-150469
