History-Social Science Framework Rollout

Join local teachers, administrators, and teacher educators for the first in a series of programs designed to introduce California's History-Social Science Framework. These roll-out events are the result of collaboration between the California Department of Education (CDE), the State Board of Education (SBE), the California County Superintendents Educational Services Association (CCSESA), and in partnership with the California History-Social Science Project (CHSSP).

These interactive and engaging one-day conferences across California offer time to collaborate with other educators, as well as state, regional, and local HSS leaders. Participants will leave with classroom-ready instructional materials, and a full-day examination of the instructional shifts, updated and expanded content, aligning HSS instruction with the ELA/ELD Framework, and inquiry-based instruction across grade levels.
