# Tulare County Office of Education

Jim Vidak, County Superintendent of Schools

## CS Decoded: An Integrated Approach

Tulare County Office of Education is partnering with Google for Education to bring a cohort of 70 educators from across California's Central Valley together to learn and collaborate to design computer science (CS) standards-based, interdisciplinary learning experiences for grades 6-8 in alignment with CA CCSS for Mathematics/NGSS. Educators, coaches, and administrators are welcome to apply to participate in the cohort. Prior CS experience is not required. There are 35 spots available for educators on the science integration track, and 35 spots available for educators on the mathematics integration track. The program is offered free of charge, thanks to the support of Google for Education. While priority will be given to educators within Tulare County, educators from across the Central Valley are welcome to apply.
