## TCOE TechConnect

The purpose of the TCOE TechConnect is to facilitate collaboration to connect educational leaders from across the Central Valley who share a vision for promoting digital literacy through technology integration in education. TCOE TechConnect is about more than just tech - join this Professional Learning Community for opportunities to learn and discuss topics including leadership skills, solid pedagogical practices, resource allocation, CCSS alignment, cultivating student-centered cultures, and more. Build your Personal Learning Network (PLN) as we work collaboratively to build our individual and collective capacity to prepare students for a future with technologies not yet conceived.

New members are welcome at any time throughout the year. Open to all technology tech coaches, teacher leaders, and administrators.
