Outline Your Classroom Floor Plan

For students, the classroom environment is very important. The size of the classroom and interior areas, the colors of the walls, the type of furniture and flooring, the amount of light, and the room arrangement all influence how students learn. Thoughtful arrangement of the indoor and outdoor environments will [support your learning goals](#) for students. This tool provides an opportunity for experimentation with the layout of your classroom without any heavy lifting!

To use this tool:

- 1. Select the basic dimensions** of the room from the Room Dimensions dropdowns.
- 2. Drag objects to the grid** from the Items bar, or draw in your own objects with the Draw bar. Arrows will allow you to change the position of some items. Delete an object by dragging it to the trashcan at the bottom, or by clicking 'delete' on your keyboard.
- 3. Print out your classroom** creation, or save it and start a new one. The floor plans are saved to a cookie on your [computer](#) and can only be viewed on this computer. If you want to store a

floor plan for your records please print it out.

<http://floorplanner.com/>

This is a really cool site and it seems easy to work with. Although it's targeted more towards residential and commercial layouts, you can still easily plan a classroom. You do have to sign up to make a plan, but if you only need to make one, then it might be worth it. Unless you plan on working for HGTV, then no need to purchase. In this platform, you can actually turn things the way you want and it has an impressive gallery of furniture to choose from.... plus things are

based on actual measurements and not guessing. What a concept! Using actual measurements to plan!?

31168 - Classic Birch Preschool Storage Unit

The screenshot displays a virtual classroom layout on a grid background. The layout includes several activity stations: a 'math & manipulatives' station with two circular tables; a 'reading area & table'; a 'computer station' with a desk and chair; a 'library & relaxation' area with a blue wall and two red chairs; a 'science' station with a table; an 'art' station with a table and red chairs; a 'music' station with a table; a 'drama theater' area; and a 'tools & construction' station with a table. A 'homework table' is also present in the center. The interface is designed for customizing a classroom environment.
